| ABOUT SECURE INDIA

Secure emerged as a prominent brand in manufacturing and supplying of the HVM (Hostile Vehicle Mitigation) & Entrance Control Products. Secure has collaborated with one of the prominent HVM product manufacturers from Germany and is manufacturing their entire range of products under an initiative of "Make in India".

We are providing a very wide range of the product like Automatic Boom Barriers, Crash Rated Boom Barriers, Traffic Bollards, Crash Rated Bollard, Automatic Gates, Tyre Killers, Axel Breaker, Road Blockers, Turnstiles, Flap Barriers, Speed Gates & RFID Solutions, etc.

Our company was established in 2017 and has flourished a lot under the guidance of Mr. Sanjiv Rajput. And, our team has experience of more than 25 years into different types of industries like Security, Automobile and automation industries. We have a well-equipped manufacturing unit that is situated in the well-developed area of Ahmedabad, Gujarat and it is easily accessible from different parts of the countries. The entire range provided by us is as per the latest International and Indian standards like BIS, DOS, PAS68 & IWA14.

Secure is providing the best quality HVM (Hostile Vehicle Mitigation) & Entrance Control Products that are manufactured using the superior quality raw materials, are as per the latest standards and completely manufactured under the expert supervision.

We have also become an authorized exclusive partner for KING Gates - Italy in India, KING Gates produces a professional range of automations for gates, garage doors, rolling shutters and barrier gates and have provided them with more than forty countries.

Our company also possesses partnership with the Shakti Hormann Group in India and the Shakti Hormann Group is one of the leading German manufacturers of all the types of the Residential Doors, Commercial Doors, Industrial Doors, Fire Doors, Loading Bay Equipment, etc.
